RESEARCH OBJECTIVE

Seeking MSc Computer Science (Thesis) Fall 2027 - Research in Explainable AI for Healthcare, Clinical Decision Support Systems. Target: RA position under supervisor working on Medical AI, Health Informatics.

EDUCATION

BSc Computer Science – Second Class Lower (2.2)

Michael Okpara University of Agriculture Umudike (MOUAU) | 2020-2023

Final Year Project: Decision Support System for Psychosis Diagnosis – Grade B+ (75%), 85% Accuracy

Relevant Coursework: Artificial Intelligence, Data Structures, Database Systems, Software Engineering, System Analysis

RESEARCH EXPERIENCE & PROJECT

Decision Support System for Psychosis Diagnosis – MOUAU Final Year Project

GitHub: http://github.com/princemakolamdaniels/psychosis-dss-mouau[2023]

- Developed hybrid AI system (Rule-Based + Machine Learning) to assist early psychosis detection in low-resource Nigerian clinics

- Implemented Random Forest classifier – Achieved 85% accuracy, 82% precision, 87% recall on 500 cases (5-fold CV)

- Built Flask web dashboard + MySQL database for secure patient management, offline-capable for rural deployment

- Encoded DSM-5 criteria (hallucinations, delusions, disorganized speech, negative symptoms)

- Future MSc Direction: Add Explainable AI (SHAP/LIME), cross-cultural validation with Canadian data, FHIR integration

TECHNICAL SKILLS

Programming: Python, SQL, HTML/CSS, JavaScript

AI/ML: Scikit-learn, Pandas, NumPy, Random Forest, SVM, Model Evaluation

Database: MySQL, MySQL Workbench

Web:Flask, Jupyter Notebook

Tools: Git/GitHub, VS Code, CVAT, Label Studio

Domain:Clinical Decision Support, DSM-5, Health Informatics

PROFESSIONAL EXPERIENCE

Software Development Intern – Isnet Solutions, Lagos | June – Sept 2024

- Assisted in web app development (HTML/CSS/JS), optimized SQL queries, participated in system testing/debugging

AWARDS

- Best Final Year Project Award – Decision Support System for Psychosis Diagnosis – MOUAU

- Dean's List – MOUAU

- SIWES Completion Certificate

PUBLICATIONS & PROPOSALS (In Progress)

- MSc Research Proposal: "Explainable AI for Cross-Cultural Psychosis Detection" – targeting University of Regina, Lakehead, Memorial University
